ABOUT THE CAMP

Rhino River Camp has been built on 80 acres of private land owned by a family who have had many years involvement in wildlife conservation in Kenya. This land alongside the Meru National Park is the last remaining stretch of riverine forest extending beyond the park as all around has been cut down for farming.

The land and the lush forest and plants are an important habitat for birds, small mammals and butterflies and we would like to help to see that it continues to exist. There is a spring and an abundant year round water supply with a stream that runs on from the property. The camp has just 7 contemporary guest cottages plus a restaurant and a pool. Activities include game drives in Meru National Park, guided walks, hiking and sundowners. The cottages are built out of sumptuous caramel canvas and sustainably grown wood, raised on platforms, 5 are just above the gently flowing Kindani River turning your stay at Rhino River Camp into a quiet, exclusive experience. The rooms are large, and set at different levels blending with the tree canopy. 02 of the rooms qualify as 02 roomed family units. Each room has its own private 'zen' area where you can meditate, re-read your favourite novel, or simply unwind. The very design of it, contemporary with a hint of Africa, is pleasant without being intrusive. Add to that a swimming pool to dream of (there is no shortage of water here), a well-stocked bar and restaurant area and numerous nature trails for you to explore.
